

## Location and Climate

Applus IDIADA China Proving Ground has easy access to airports in Qingdao and Yantai which provide convenient flights to both domestic and international cities, such as Barcelona, Frankfurt, Los Angeles, Osaka and Seoul.

### Location:

Located 20 km north-west of Zhaoyuan (Shandong Province), Applus IDIADA China proving ground location stands out for its favorable climatic conditions, easy access by motorway and tourist surroundings.

- Excellent motorway links with Yantai and Qingdao
- 45 minutes drive from Yantai Penglai International Airport; 2 hours drive from Qingdao Liuting International Airport
- Easy access to Yantai Port, Qingdao Port and Longkou Port
- Wide range of public roads, including winding country and coastal roads, motorways... etc

### Climate:

Located close to Bohai Bay, Yantai enjoys the favorable warm temperate continental monsoon climate. Summer temperatures are ideal for hot climate tests and development programs are able to continue independently of the weather during the summer and autumn months, making this facility the first choice regardless of type of testing.

- Mild weather
- Two months with average temperatures slightly under 0
- Rain season during summer
